Allison, Cindy & Donald

I want to give you three a heads up on the task that was handed today to the National Conservation Lands program in reference to the National Monuments under the review. The WO staff are going to meet and discuss what level of work will be put on whom and how we are going to address this massive data request tomorrow. I hope to engage much of WO as possible to front end this request as much as possible, but I expect there will be some heavy lifting at the SO, FO and Monument Level.

Though I want to give you a chance to review to be prepared since Bears Ears and Grand Staircase are on the fast track for information gathering. I was also asked not to broadcast this list until after our internal meeting tomorrow, but everyone agreed you three should have a heads up and be able to review.

I hope to have a much clearer direction for you three tomorrow and will be in touch.

Again please do not broadcast.

Thanks,

Timothy J Fisher, Program Lead
